Dear Earl, 9/1/81

I've not heard from Lesar, whose office moved over the weekend and who had an appeals reply brief due tomorrow at the latest in another case. He did read it more carefully while he was on vacation and will be getting on what he'll file not later than day after tomorrow. It will also be a summary because it will not require the detail in its backstopping.

The office is moved to Arlington, just across the river, so I don't know what effect, if any, that will have on the press conference. It is closer to downtown Washington than much of the city is.

I'd like to know what you think, and plan.

Best regards,
